Professional Bio

I have over 10 years' experience working for training providers, working on various government funded programmes, such as traineeships & apprenticeships. I enjoy working with people and helping them achieve their career goals, by not only finding the right programme for them but offering information advice and guidance to set them on the right path. I plan to continue to work with key partners and stakeholders to facilitate a pathway for all the people that come onto our programmes, to achieve a great outcome for them.
