

Level 2 Certificate in the Principles of Dementia Care

Course Overview

The knowledge and skills needed to provide dementia care has never been more necessary than it is now. This qualification will help you understand what the condition entails, as well teach how best to support those who are affected by it. The course covers essential topics such as positive communication techniques and person-centred approaches that take into account an individual's needs at every stage of their journey through this difficult time in life. Learn how you can best help them in their time of need with professional yet personable attention during the illness phase too when they may be experiencing symptoms like confusion due to forgetting things previously known just yesterday.

Course length:
8-12 weeks

Awarding Body:
TQUK

Value: £299.00
Cost: £0.00

Benefits For Individuals

Course Content

Unit 1: Dementia awareness

This unit covers precisely what dementia is, the most common types of dementia and the causal factors associated with them. Also explored is how others can have a positive impact on an individual with dementia through a variety of different techniques.

Unit 2: Person-centred approach to the care and support of individuals with dementia

Build the knowledge and understanding required to enable an individual with dementia to experience a sense of security and well-being. The vital role of carers in such a scenario is also covered.

Unit 3: Understand the factors that can influence communication and interaction with individuals who have dementia

This unit will raise awareness of the different communication needs and limitations of individuals with dementia in order to encourage positive interaction.

Unit 4: Understand equality, diversity and inclusion in dementia care

An introduction to equality, diversity and inclusion as ideas to aspire to, which are also all important when practising the person-centred care approach.
